

SMART™ Lesson

Sequencing Events in Early Literature

When we read stories, it is important to understand the order of events. This is called sequencing. Sequencing means putting events in the correct order. This helps us understand the story better.

Practice Sequencing

Read the following sentences and put them in the correct order. Write the number of the sentence to put them in order.

1. Jack climbed up the beanstalk and reached the sky.
2. Jack sold his cow at the market.
3. Jack saw a giant and ran down the beanstalk.
4. Jack found a bag of gold at the top of the beanstalk.

1. First:

2. Second:

3. Third:

4. Fourth:
